1. Instalment of the GPS tracking system

System GPS for tracking is obligatory to install due to safety reasons.

The system must be installed as follows:

- **Red wires** need to be connected to a constant source +12V and **black wires** to the chassis or negative pol on the battery.
- The device needs to be attached with plastic ties to the roll bar in the upright position (number up).
- Inspection of instalment and operation will be checked at the scrutineering checks.
- If the crew needs help in case of the accident the button marked **SOS** must be pressed!
